

HydraSonic™ Ultra-Purified Crystalline water was created the way nature intended!

After many years of development by **Commit to be Fit Inc.**, **HydraSonic™ Ultra-Purified Crystalline water** was created and the exclusive global license of use has been granted to **Emerald Earth LLC**. This evolved as a partnership between nature and science, pairing of the most ancient h2o life forms and new millennium technology. This union of ancient water biology and the utilization of a 21st century water processing technology have teamed together to provide a helpful contribution to improve our polluted and stressful style of modern living.

Countless millennia ago, ultra-pure crystalline water was created in a natural pure fashion. There has been over fourteen years of human testing of this natural based process. This unique process creates ultra-pure, crystalline water just as in nature, allowing deep, cellular intake through the aquaporin channels, the floodgates to hydration*. The technology that goes into manufacturing **HydraSonic™** is one of a kind, and contains no preservatives or additives used in this proprietary process. It features a clear, refreshing taste, intended to re-hydrate without the consequences of bloating or sloshing in your stomach*. **HydraSonic™** water was engineered to optimize the cellular absorption of this exceptionally pure water molecule for all plants, animals and humans plus many other non-humans uses as well!

To grasp the principle of ultra-pure **HydraSonic™** crystalline water; simply think of this unique water as unpolluted rainwater with a no trace minerals of content. **HydraSonic™** water is so pure that it has been independently lab tested for less than .001 parts per million of total dissolved solids which is 20 times lower than the Food and Drug Administration (FDA) standard of 10 ppm for purified water and 1000 times lower than the Environmental Protection Agency (EPA) secondary standard of 500 ppm for drinking water.

HydraSonic™ crystalline water is so quickly absorbed and can be of benefit every cell in your body as our water is more than ultra-pure as its pH balanced and is non-corrosive just as in nature*. This advanced proprietary water processing technology consists of a multi-stage process of ultra-purification and the revitalizing of the crystalline structure of the water*. This process ensures that **HydraSonic™** crystalline water results in unmatched purity of this ultra-pure crystalline water.

HydraSonic™ crystalline water is similar to the liquid element found on earth at the dawn of time when the earth was covered by rain forests and dinosaurs, which depended for their growth and vigorous life in the water and air, which in those days contained much higher levels of oxygen and nutrients in the soil. Only with the miracle of this natural based advanced water processing technology were we able to produce this ultra-pure, clean and highly absorbent cellular water!*. This is a one of a kind proprietary process which creates liquid crystalline h2o molecules, which your body actually prefers*. This water is incredibly pure and remarkably smooth to the taste. Try putting some on your hands and face and see for your-self how absorbent our unique water is!

HydraSonic™ water is the next generation of human hydration!
